Objective	Cyber Analyst, specialized in cybersecurity features, with experience in the field of networking & Python.
Skills & Abilities	IPsec, DNS, VPN, Linux, Selenium, Bash, PowerShell, Firewalls, PT, SaaS, Wireshark, Network Miner, VMware, Office 360, LAN, WLAN, Python
Experience	**January 2021 – Present** **CEO, Statbuy Group** Managed a successful digital marketing company, achieving over 7 figures in revenue through managing client accounts.
FAQ	**Here is where I wrote some questions for myself, a bit narcissistic!** **Where can I visit your projects?:** My GitHub doesn't reflect my full capabilities, but I am confident in my ability to learn and apply new technologies. **Why are you looking for a job?:** I want to help companies from the inside to thrive and succeed , whatever it takes. I enjoy helping and hitting goals together with my knowledge. I believe I can help.
Courses	Completed 425 hours of college coursework in Network and Windows forensics, penetration testing, SOC analysis and Network security. **John Bryce CySA+**

Notes: I tried to make this CV as shorter as possible since I understand the value of time.
